

French Poodle

Now, this Poodle is done in my "X fold face" I want you to learn the various faces that I create because once you learn them well you can create many of your very own animal/charecter faces!

Materials Needed

Hot melt glue

Black or brown pom pom for the nose

2 white pom poms for the ears and one large pom pom for the head, these can be found at craft store or your local Walmart so don't panic.

Wire

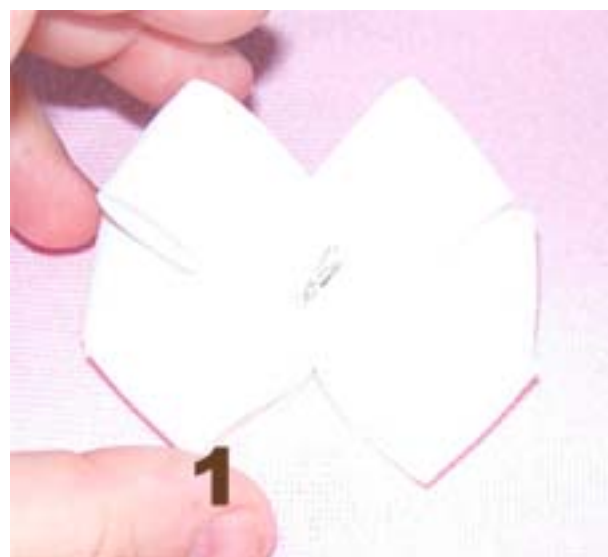

1" white Grosgrain ribbon, 3 pieces cut in 5" pieces for the face, 1 piece cut in 9" for the ears.

3/8" pink grosgrain ribbon or ribbon of your choice for on top of her head.

3/8" pink grosgrain ribbon cut in 1" piece, cut out in the shape of a tounge.

Remember to fray check the tounge and edges of your ears so they don't come apart!

Take your 3 piece of grosgrain ribbon for the face and one at a time fold over your ribbon and make a simple bow tie and secure the center well by wrapping your wire around it. Do that two more times with the other pieces of ribbon.

Take 2 of your bow ties and make an X pattern with them, glue one on top of the other. Take your 3rd bow tie and place that length wise in the back of the X bows, glue it on.

Take your piece of grosgrain that you cut for the ears, cut and round off each end of your ribbon for the ears and fray check, take that piece of ribbon and I want you to just pull it through the two top loops of your poodles face now until the ribbon comes out the other end. See picture #3 how his ears ar flopping out on either side? :)

Glue your nose on first this will help you easily to see where to put the eyes, then glue on your eyes. glue on the bigger pom pom on top of her head and the two smaller pom poms one on either side of her ears. Take her tounge and slip it in between the bottom of the X on her face and glue it.

WooF! WooF! :) You did it YAY!!!!!!! :)
