

Lacey Head Band

Materials Needed

Stretch Lace, 14"-16" is the standard size for use up to 4 years of age BUT measure your child's head before starting, 1" wide is a good versatile size to use.

A bow or a lace medallion that you made using my Lacey medallion instructions that are included.

Some rosette's or ribbons or bow resin embellishment
Need and thread, as always have it ready to go!

Measure and cut your stretch lace

Fold over in half, on the end of the lace fold over about 1/4" on the lip before you sew your ends close this will help it look more finished and help it stay together more. Sew the ends together.

After you are done sewing turn your head band inside out. Sew on your embellishments of your choice or glue them on.

In this instance I made a Lacey Medallion and I added a basic simple satin bow with 1/8" ribbon and i added two rosettes on top of that, that I purchased.
