

## Shannon Marie FunKY GirLz BoW!

### Materials needed:

Wire - 18-20 gauge

Clippie of your choice, French clippie is preferred for the stability of the bow

Hot melt glue or Aleene's Tacky Glue

Spray fabric stiffener

White tissue paper or Paper towels

You can change any of the above colors and patterns to anything that you wish, have fun with this! I am just letting you know what was specific colored/patterend ribbons were used on this exact bow because we have gotten many request from costumers that want to learn how to make the exact bows the way they were shown in the picture! This is for you girls. :)

Ribbons to Measure and cut (your ribbons of choice)

2 - 9" pieces of yellow w/white dots grosgrain ribbon

2.5" school printed ribbon 11" long

1.5" turquoise grosgrain ribbon 35" long

7/8" turquoise grosgrain ribbon 13" long

3/8" red grosgrain ribbon 3" long

1.5" yellow grosgrain ribbon 10" long

7/8" orange grosgrain ribbon 7" long

Cut your 2.5" school printed ribbon 11" long.

Use your 1.5" emerald green grosgrain ribbon 35" long. Leave a little bit of the ribbon tail approximately 3" hanging then form a 6 inch loop then bring the ribbon back towards you and form another 6" loop. Take your ribbon and pull it away from you to form another 6" loop. Take your ribbon and again pull it towards you. You are basically taking ribbon, making a loop folding the ribbon under, forming another loop, pulling the ribbon away from you and repeating these steps over again like a zig zag pattern. \*Z\*

See picture 4 nice and loose loops, clinch it in the center, wire it tightly.

Cut both of your tails on an angle V shape. You just made a 4 looped bow with tails.

take your 4 looped bow with tails and place it on top of your school ribbon that you have cut into tails on either side and wire them both together tightly.

Use your piece of 1.5" yellow grosgrain ribbon 10" long, clinch it in the center and wire it on top of your 4 looped bow with tails. Cut your tails on an angle.

Take your piece of 7/8" orange grosgrain ribbon 7" long, clinch it in the center and wire it on top of your other bows.

7/8" turquoise grosgrain ribbon 13" long. Take your ribbon, fold in half just so that you can see where your center of your ribbon is. See picture 9# make a loop and have equal amount of ribbon hanging on either side of your loop.

Take your tail that you have on top of your other tail and fold that piece of ribbon under, pull your ribbon away from you and make another loop. Come back towards yourself and make another loop. You now have 4 loops total with tails on either side.

Clinch it in the center and wire it on top of the rest of your ribbons.

You just made a funky fold bow, I call it that because it has one end/edge of the bow with a funky fold. See picture 14's upper right hand corner?

Take your piece of red 3/8" grosgrain ribbon 3" long and wrap it around the center of your bow, turn your bow around and tie that ribbon in a knot.

Puff it up with your tissue paper the way you like it. Spray it well with your fabric stiffener when dry remove the tissue paper.

You can add a cute bow embellishment to this bow in the center.

There you go, now your Shannon Marire bow is all ready to attach to your clippie!
