

## **Baby Headbands to match Gymboree, Baby Lulu e.t.c Tip**

**This was not in the instructions description \*surprise\* but I thought that some of you would like to try it!**

**This is one of the easiest headbands ever! Not only will you be making this in a snap but you will be recycling your little ones tights! yes her tights!**

**Cut 4" tubes from her tights, fold in half and make sure that the design is inside the fold! Sew across. Turn your tube inside out so that the design is now on the outside. Bring both of your ends together and sew. That's it there is a cool way to make matching head bands for her outfits. :)**

**You can make her little bows to top them off by just making a smaller tube and clinching it in the center with a piece of ribbon and maybe even adding in a cute embellishment. Sew it on to your headband. :)**
