

Pony Tail Ties

First pick out some kind of embellishments like cute button shaped apples, or flowers, you will need 2 of the same kind. Cut 8 pieces of ribbon 2" each. You can use the same color of ribbon or mix it up.

Place one piece of ribbon on the table, put another criss cross on top of that, put another going across on top of it, keep on going until it looks like you made sort of a circle using your ribbons

take a small piece of ribbon or felt, glue it in the center so that it will hold all the pieces of ribbon on it. When dried flip over, glue your button or embellishment on top of it, turn it

over and add a clippie of your choice.

Repeat and you have two pony tail ties. You can make the ribbons as long as you want to also you can use more then 8 pieces of ribbon, the choice is yours!
