

# Goldfishie

Measure 10" of 2.5" wide ribbon, any color that you like, blue, orange e.t.c. Take your ribbon and fold it in half.

Take the top ribbon and fold it back.

Fold it back all the way so that the upper part of the ribbon touches the other ribbon.

Like so.

Now flip your ribbon over so the above picture will be the back of your ribbon and photo #5 will be the front of your ribbon. This part will be the bases for the fishies face.

Cut the ribbons end on an angle. That will be the fishies tail.

Go back to the top of the ribbon and about an inch and a half to 2 inches clinch it. Tie it up with a piece of wire or elastic band. Take a 5" piece of the same size width and colored ribbon and tie it around the fishies neck, tie it so that you have one long piece of ribbon

hanging and one very short piece. Trim the short piece by the goldfishies neck. And the long piece will go towards the fishies tail. Cut that at an angle also so it looks like she has an even more prettier tail.

Glue a little bow on her neck to hide the ribbon that was tied into a knot and glue one eye on for her. There she is, isn't she simple and cute? :)
