

## Baby Head band

I would advice buying the headbands pre made, they are not expensive and it saves you a lot of time. They are anywhere from \$1.59 at [ribbonsandbowsohmy.com](http://ribbonsandbowsohmy.com) and up to \$2.60 in other places. But if you like to sew and can offer competitive prices you have yourself a good money maker because we all need these, lol. Maybe make this your niche' and sell them in \*lots\* in different colors? You know if you want a lil business at home, you do not have to make bows in order to do that. Maybe making bows and such are not your cup of tea. You can still have a little business for yourself by supplying us bow makers with things that we need that would be time consuming for us to make ourselves like pre made cut and frayed Korker ribbons, you can offer them in color schemes to match Gymbo or Baby G\*\* lines,

e.t.c.

OK now back to our Baby head band! :)

Take your choice of pretty double ruffled ribbon 27" long and wrap it around your thumb and index finger in 8" loops, wrap it around 3 times, let the excess over hang.

Fan out your ribbon so that it looks like an X but with a strand of ribbon in the center, Take

a piece of 4" ribbon tie a knot in the center, do not pull it tight, you want to resemble a rose bud.

Wrap it around the center of your bow with the rose bud showing in the front, now tie the ribbon in the back and cut off the excess. Sew your ribbon on to your baby headband. I wouldn't recommend gluing it on because this will be stretched and stretched over time.

Isn't it ADORABLE and SO easy to do huh? :)
