

# Butterfly

Measure 2 pieces of 1.5" grosgrain ribbon.  
Choose two different colors.

Clinch and wire the wings in the center.

Cris cross the bow wings and secure with some wire.

Cut 9" of crinkle ribbon. Fold the crinkle ribbon in half. Twist the crinkle ribbon and secure with the wire in 4 different places to give the body stability and for it to keep its shape. Make sure you leave two pieces open on top for antenna. See photo below.

Glue a pom pom on the top of the body and glue on two eyes.

Glue the krinkle body onto the wings and there is your Butterfly! I think she is so pretty! Hope you will too! :)
