

Loop Baby Bow

Use 3/8" ribbon. Make sure that you fully line your clips so that they will not fall out of the babies hair. Lining the clip with Velcro also works well.

Take your ribbon, make a loop. Go back and forth in a figure 8 design, 3 loops on each side. Take a piece of ribbon and wrap it around the center of the bow and your clip. Or you can tie a piece of ribbon in a knot sort of like a rosette and tie that in the middle.

Butterfly Baby Bow

This bow reminds me of a butterfly's wings. It is so simple. Use 3/8" ribbon again. Leave a little bit of ribbon off to the side so you can have a little tail. Go back and forth back and forth with the ribbon and make 2 or 3 loops on each side.

Tie a piece of ribbon for the center around your clip or make a rosette ribbon for the center. In this photo I've added a lil button that says "Baby Girl"
