

Lucky The LadyBug

You will need 6" of black 7/8" grosgrain ribbon. 3" of red 7/8" grosgrain ribbon. 1 black pipe cleaner 2" long. Take your black ribbon put glue on one side of the ribbon, sandwich it together. When dry cut a 1" circle and a 1/2" circle.

Do the same with the red grosgrain ribbon. Cut a 1" circle out and cut that circle in half. Glue the red half circles on top of you 1" black grosgrain circle. Spread out the red circles a bit so it looks like the LadyBug's wings are fluttering/spread out a bit.

Glue the 1/2" black grosgrain circle a little bit under the 1" black circle. This will be the LadyBugs head. Glue on her eyes and shape her pipe cleaner antenna. You can also add a pretty little bow at her neckline ie: in between her head and body. Now secure her to a clippie of your choice. Isn't she pretty? :)
