

Itsy Bitsy Spider and Ghosty

LOL... this is so simple and so cute! You are just making a korker bow, see your korker directions if need be. Take 10 pieces of 3" korkers, wire them in the center and puff up your korkers, add in the BIG BIG googley eyes and a cute bow on top of her head, her great big eyes make her a site for sore eyes, too cute! lol Ghosty is the same only in white.

Attach these cuties to a 1 pronged clippie.
