

Lined Clippies AND Clippies For Babies

Use 3/8" of grosgrain ribbon cut 5-6" approx.

Glue and add your ribbon as you go along.

Open up your clip, place some glue on 1 side of the inner part of the clippie, place your ribbon on it, flip the clippie over, glue and put your ribbon on it, now go around and cover the back hinged part of the clippie, glue that side and put your ribbon on it, now open your clip again and glue and place your ribbon that.

Finished Clippie with a bow attached.

Clippies for Babies

You make your lined clippe the same as above but add on - on one side of the inner part of the clippe.

Line it with a piece of 3/8" ribbon.

Go by the shelf paper at your local Walmart or whatever, it's rubbery and it has tiny holes in it, you can put something on it and wont slide off, it's not the shelf paper or contact paper, it comes in white and ivory. Cut a tiny strip and line the one inner side of your clippe with it.

Cut a thin magnetic strip and glue on one side of the inner part of your clippe.

All of the above tips will help keep your clippies on your babies hair without slipping off.
