

Twist Double Bow

Measure and cut 25" inches of 1.5" ribbon

18" of 1.5 ribbon

4" of 3/8" ribbon

Measure and cut 25" inches of 1.5" ribbon

Lay the ribbon down flat in an opposite snake like pattern in picture 2#

From right to left. Pick up your ribbon and pleat, pick up your ribbon and pleat again, keep on going until you have it all clinched nice in the center, wrap a piece of wire around the center several times and put aside.

Measure and cut 18" of 1.5 ribbon and fold over in the v pattern in picture #5

Pleat and clinch in the center

Wire the center so it is nice and tight, leave some wire hanging and place it on top of your previous bow, wrap the wire around both.

Measure and cut 4" of 3/8" ribbon. Make a knot and then make another knot over that knot. Tie it around the top of your bows. I love this bow especially for mixing animal patterns. Especially Zebra and Leopard. Mix some Apple green and Zebra ribbon in there and you have a cool mod Zebra bow!
